The Open Society and Its
Enemies is a work on
political philosophy by the
philosopher Karl Popper, in
which the author presents a
"defence of the open society
against its enemies", and
offers a critique of
theories of teleological
historicism, according to
which history unfolds
inexorably according to
universal laws. Popper
indicts Plato, Georg Wilhelm
Friedrich Hegel, and Karl

In Popper's Open Society, the principle of democracy is regarded as fixed, as not being open to revision. In the Free Society, is it the far more fundamental principle of individual liberty and nonaggression that is not open to revision (though its implications may be refined with growing knowledge).

Popper holds that the open society first rose in ancient Athens, but was soon challenged by its contemporaries. The totalitarian spirit, which for Popper is as old as civilization itself, was born of the attempt to stifle the progress of the open society. He singles out Plato as a prime example of this totalitarian spirit.

Karl Popper defined the open society as one "in which individuals are confronted with personal decisions" as opposed to a "magical or tribal or collectivist society." [15] He considered that only democracy provides an institutional mechanism for reform and leadership change without the need for bloodshed, revolution or coup d'état .

Karl Popper on the Open Society (1974) - YouTube
Popper's open society is technocratic rather than aristocratic. 3. References and Further Reading. The key texts for Popper's political thought are *The Open Society and Its Enemies* (1945) and *The Poverty of Historicism* (1944/45). Popper continued to write and speak about politics until his death in 1994, but his later work was mostly refinement of the ideas that he developed in those two seminal essays.
